

Systems Acquisition

Systems Acquisition Support

LinQuest has a 30 year heritage in providing unbiased acquisition support for a variety of systems and customers. Our experience spans from single systems to managing the acquisition of enterprise system-of-systems.

LinQuest Approach

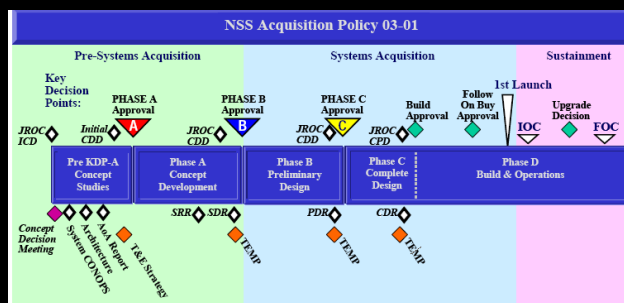

- Combination of prior government and industry professionals
- Intimate knowledge of NSSP 03-01 & DoDI 5000.2
- Combined acquisition experience with SE&I processes
- Domain expertise complimenting acquisition experience
- Unbiased, OCI free on government programs

LinQuest applies a coordinated approach of acquisition management, systems engineering and domain expertise to provide the highest level of system acquisition support. Many of our personnel also have certifications from professional organizations such as PMI and INCOSE, and were certified as Level 3 Program Managers and Systems Engineers (SPRDE) in the DoD Acquisition Professional Development Program.
