

# Systems Acquisition

## Systems Acquisition Support

LinQuest has a 30-year heritage in providing unbiased acquisition support for a variety of systems and customers. Our experience spans from single systems to managing the acquisition of enterprise system-of-systems. LinQuest applies a coordinated approach of acquisition management, systems engineering, and domain expertise to provide the highest level of systems acquisition support proficiency. Many of our personnel also have certifications from professional organizations, such as PMI and INCOSE, and are certified as Level 3 Program Managers and Systems Engineers (SPRDE) in the DoD Acquisition Professional Development Program.

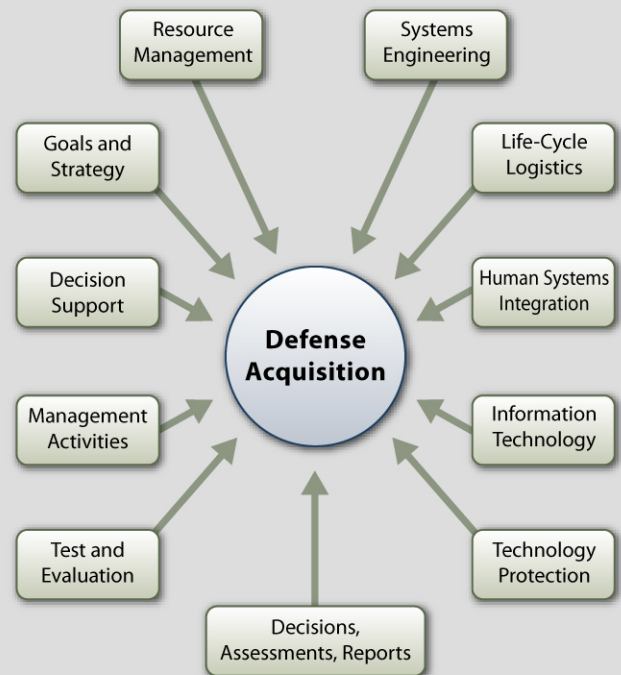

### LinQuest Approach

- Combine prior government service-certified acquisition professionals and industry acquisition experts
- Apply intimate knowledge of Nssp 03-01 and DoDI 5000.2
- Apply tailored SE&I processes to the acquisition process
- Combine domain experts with acquisition professionals
- Remain unbiased/OCI-free on government programs

### LinQuest Acquisition Support Experience

- Enterprise Systems Acquisition
  - MILSATCOM
  - Global Positioning System
